

## Styled Photo Sets at the Sanctuary Session Guidelines & Booking Details

### Styled Photo Sets at the Sanctuary

Forest Sanctuary • St. Germain, Wisconsin

A selection of handcrafted photo environments are available within the Forest Sanctuary setting.

These styled sets are created using gathered textiles, natural elements, vintage materials, and handmade adornments already present in the studio. Some installations are suspended between trees, while others are arranged as small worlds within the yard.

The sanctuary is a working creative space where artistic environments are occasionally opened for portrait sessions.

Photographers and clients simply step into the prepared space and conduct their session within the reserved time window.
